

Funk Groove and Fill

This is a great little groove complete with an offbeat fill at the end. The groove repeats over three bars before the fill but obviously you can adjust this as necessary.

The sticking is Right hand/Hi-hat, Left Hand/Snare until indicated during the fill. Make sure you play the ghost notes correctly (plenty of contrast to the full snare beats) to really get the best out of the groove.

Have fun!

4/4
